## Policy Statement on Environmental Awareness and Stewardship

It is the policy of Draper Aden Associates to be good stewards of the environment in all of our operations, to assist our clients in this regard, and to embrace environmental awareness and responsibility.

To do this we will:

- Promote environmental awareness through education and action.
- Consider the impacts of our services and operations on the environment.
- Implement measures and programs which minimize waste and lessen adverse impacts from our operations on the environment.
- Offer environmentally responsible alternatives and solutions to our clients.
- Actively participate in community events which promote and enhance environmental quality.
