

EPA Introduces New Web Site on Funding

Region 3 of the U.S. Environmental Protection Agency (EPA) has introduced a new web page for "Grants and Funding in the Mid-Atlantic States." This new and improved site, which debuted at the end of April, contains information about general grants and water financing. What's new about this page is that it has applications and reporting forms that applicants can fill in on their computers and print out.

The site contains information relating to the following:

General Grants Information

- How to Apply
- Managing Your Grant
- Application Forms
- Report Forms
- Links to Related Information

Water Protection Division

- Drinking Water & Clean Water State Revolving Loan Funds
- Drinking Water Security Grants
- Directed Funding

The web page can be accessed at www.epa.gov/region03/grants/index.htm.

Virginia Water Facilities Revolving Fund Update

The DEQ will mail the VWFRF loan packages to all localities with wastewater systems by the end of May. While the exact due date has not been determined - it will be in Mid-July. The applications packages will contain the exact due date.

For additional information concerning the DEQ web site or other grants and funding programs, call Sheryl Stephens ([sstephens@daa.com](mailto:ssstephens@daa.com)) at (804) 261-2915.
