Stormwater Outreach Materials and Reference Documents

The Environmental Protection Agency (EPA) has developed a set of materials, free of charge, that state or local governments can customize and use in their own stormwater outreach campaigns. Since stormwater runoff is our most common cause of water pollution and because stormwater pollution is caused by so many different activities, traditional regulatory controls will only go so far. Education and outreach are key components to any successful stormwater program

Not only has the EPA developed these materials but have designed many of them to contain space for officials to add their own contact information and inexpensively reproduce. Below you'll find materials for the general public, homeowners, construction site operators, and children. The EPA's stormwater outreach materials include:

Brochures:

- The Role of Local Governments in Implementing the NPDES Stormwater Program for Construction Sites
- Does Your Construction Site Need a Stormwater Permit? A Construction Site Operators Guide to EPA's Stormwater Permit Program
- After the Storm
- Make Your Home the Solution to Stormwater Pollution
- Stormwater Management: An Overview for Auto Recyclers
- Stormwater Management: A Guide for Auto Recycler Owners and Operators

Fact Sheets:

- Protecting Water Quality from Urban Runoff
- Cleaning Up Polluted Runoff with the Clean Water State Revolving Fund
- Innovative Use of Clean Water State Revolving Funds for Nonpoint Source Pollution
- Funding Decentralized Wastewater Systems Using the Clean Water State Revolving Fund

Miscellaneous Materials:

- Stormwater and the Construction Industry Poster
- Water Efficient Landscaping Booklet
- Door Hanger: Stormwater Pollution Found in Your Area
- Stormwater Stickers For Kids
- Bookmark: 10 Things That You Can Do to Prevent Stormwater Runoff Pollution
- Placemat: Take the Stormwater Challenge

You may order copies of the Stormwater Outreach Materials and Reference Documents CD (*EPA 833-C-03-001*) and printed copies of these materials free of charge. Please contact EPA's NPDES program at npdesbox-request@epa.gov or fax your request to 202-564-6392. Please include the words "Stormwater Month Materials" in your e-mail or fax.

For more information on stormwater and nonpoint source pollution, please visit the following web sites: www.epa.gov/npdes/stormwater – EPA's stormwater program homepage, www.epa.gov/owow/nps - EPA's nonpoint source program homepage or www.CICAcenter.org - the Construction Industry Compliance Assistance center homepage.

If you would like to have your name removed from our fax list, please send your request to chanks@daa.com.
