

Sunday November 9

Liquid Assets: The Story of Our Water Infrastructure

Your local Public Broadcasting Station (PBS) will be airing an important look at our present infrastructure system this weekend and the critical role it plays in promoting economic prosperity and public health.

"Liquid Assets" tells the story of essential infrastructure systems: drinking water, wastewater, and stormwater. These complex and aging systems—some in the ground for more than 100 years—are critical for basic sanitation, public safety, economic development, and a host of other necessities of life. The documentary highlights communities from across the United States, providing an understanding of hidden water infrastructure assets, demonstrating watershed protection approaches, and illustrating twenty-first century solutions.

"I think this is going to be a very informative documentary," said Bill Aden, P.E., President and CEO of Draper Aden Associates "We see this event as a catalyst for ongoing discussions about local water infrastructure and other important civic issues."

The documentary is scheduled to air locally on WBRA-TV, Roanoke; WSBN-TV, Norton and WMSY-TV, Marion on Sunday, November 9 at 4:34 PM. Check local listings to see what channel is airing the film in your area.

Accompanying the documentary is an online companion toolkit, intended to help facilitate local discussions. The community toolkit, available at <http://liquidassets.psu.edu>, includes chapter summaries, discussion questions and other resources.

"The goal of this public service media project is to stimulate community discussion and bring this issue into the public consciousness using television as a catalyst," said executive producer of the documentary, Tom Keiter. "We want 'Liquid Assets' to be more than just a broadcast."

For more information about infrastructure systems and their importance to your community contact Bill Aden P.E. (baden@daa.com) or Larado Robinson, P.E. (lrobinson@daa.com) at 540-552-0444. Or email daa@daa.com with any questions.

If you would like to have your name removed from our fax list, please send your request to chanks@daa.com.
