

2012 Deadlines Announced

Virginia Department of Health Funding News

The Virginia Department of Health (VDH) has announced this year's deadlines for applying for funding from the State Revolving Fund. Funds are available for both privately and publically owned community waterworks. Click on the link below for more key information on the main programs listed.

Twenty million dollars are available for construction funds in the form of loans or grants. **Construction funding** applications are due April 2, 2012. Readiness to proceed to construction is a key element.

Small project construction grants are available to projects totaling \$150,000 or less. The small projects construction grant applications are also due April, 2.

Planning and Design grant applications are due August, 27, 2012. The requirement for amount of people served by the applying utility has been raised from 3,300 to fewer than 10,000.

Surface water development or improvement grants are also due April 2, 2012 and eligible activities may include land purchase, site development costs, dam upgrade and construction.
